Giving Back to Our Community

Joel Janorschke,
General Manager
jjanorschke@traverseelectric.com

Over the years, you have probably heard or read about Traverse Electric's concern for our community. This is one of the core principles that sets cooperatives apart from other types of utilities and businesses. We've always taken this mission and responsibility to heart. It's who we are as a co-op.

Over the past few months, like so many of you, we've risen to meet new challenges and strengthen the safety net for our community, particularly for those who are most vulnerable. Because of the COVID-19 pandemic, we've made numerous adjustments to programs and operations to maintain business continuity while staying focused on the bigger mission of helping our consumer-members during this turbulent time.

With the holidays fast approaching, these recent events have made me pause and think about the role we play in our community. While our purpose is to provide safe and reliable energy to you, the members we serve, we have a greater mission - to be a catalyst for good.

Our Youth Tour program, where we take our community's brightest young people to Washington, D.C. for a week-long immersion to experience democracy in action. We also have a strong commitment to safety - not just for our employees, but for our community as well.

You will also see our employees serving on local boards, coaching youth sports, volunteering at charitable events. Because when you work at a co-op, you understand how important a strong community is - after all, without you, the co-op wouldn't exist.

We know that our core job is to keep the lights on, but our passion is our community. Because we live and work here too, and we want to make it a better place for all.

If there's anything we can do to help you - whether providing energy-saving advice to help lower your monthly bill or discussing payment plan options during these difficult times - please reach out to us at 1-800-927-5443.

Concern for the community is the heart and soul of who we are. And no matter what the future brings, you can count on your electric co-op to care about you.

Learn About Co-ops

It's a Matter of PRINCIPLE

The Rochdale Principles

Co-ops deliver electricity, sell produce, provide loans, and arrange for housing, health care, and more. But despite these differences, they all have one thing in common—seven cooperative principles:

- Voluntary and Open Membership
- Democratic Member Control
- Members' Economic Participation
- Autonomy and Independence
- Education, Training, Information
- Cooperation Among Cooperatives
- Concern for Community

Learn more at www.go.coop.

**Cooperative Enterprises
Build a Better World**

We know that our core job is to keep the lights on, but our passion is our community.

Our Mission: To provide dependable service at the lowest possible rates, consistent with sound business principles. Design assistance by SDREA.

August 2020 Board Meeting Highlights

The August board meeting was held on Tuesday, Aug. 25, 2020 at 8 a.m. Absent: Kath.

Staff members present were General Manager, Joel Janorschke and Karen Lupkes.

The agenda was approved.

The minutes of the July board meeting and 80th Annual Drive-thru meeting were approved.

The July check register was approved.

Homan reported on the East River board meeting.

Armstrong, Frisch, and Marks reported on the MREA District III meeting.

Janorschke presented the Manager's Report, which included:

- Provided a Basin Electric update.
- REED Fund review.
- Provided an East River update.
- NRECA update.
- MREA and MN legislative update.
- SDREA and SD legislative update.
- Temporary service for a dairy discussed.
- Discussed meeting with a member regarding power blinks and load control.
- Discussed member owned security lights on our transformer poles.
- Voltage recorder placed at irrigation service found no issues.

Lupkes gave the Office Manager's Report, which included:

- July 31, 2020 accounts receivable balances were reviewed.
- A list of new members was reviewed.
- COVID-19 update.
- Late payment penalties and disconnect will resume in September.
- Our electrician has been installing generators for members.

Reviewed and approved the July Financial Report.

Janorschke gave the Operations Report. Items discussed included:

- Outages were reviewed. Lots of outages in July due to storms.
- Crews are working on pole changes and new services.
- Carr's Tree Service finished tree trimming and spraying for the year.
- Star Energy completed padmount transformer and cabinet inspections.
- East River requested two more miles of URD conversion for their transmission line in Roberts County.
- STAR Energy completed an engineering study that will be utilized in future system workplans.
- Our safety program was reviewed. RESAP observation will be held this week.

Reviewed district boundaries with no changes made.

A list of upcoming meetings and attendees was reviewed.

Meeting adjourned.

Enjoy an energy-efficient feast this Thanksgiving

New electrical appliances use far less energy in your home than older ones, but that doesn't mean you should skimp on energy-efficient behavior in the kitchen.

During the frantic holiday season, making the simplest changes while cooking can save plenty of energy and money.

- There's usually no need to preheat the oven, especially if the food you're cooking - like a turkey or a ham - will be in it for a long time.
- Avoid opening the oven door to check on food. Instead, turn on the oven light and peer through the window to make sure your pumpkin pie or turkey isn't burning to a crisp. Opening the oven door - even for just a second or two - can drop the temperature inside the oven by 25 degrees.
- Place several items in the oven at once. All food will cook thoroughly if you leave enough room around pies or casseroles for air to flow.
- Electric ovens retain heat even after you turn them off, so it's safe to turn them off several minutes before a recipe's time is up. Electric stovetops work the same way: The metal element will keep cooking for several minutes after you turn it off.
- Choose glass or ceramic pans for the oven. They let you set the temperature 25 degrees lower than metal pans do.
- Match the pan size to the size of the stovetop burner so you don't waste heat. Just a 2-inch difference between pan and burner can waste 40 percent of the generated heat.
- Zap baked potatoes and vegetables in the microwave instead of simmering them on the stovetop. Microwaves use significantly less electricity than a stove or oven.
- Involve everyone in cooking. Leave the electric mixer in the cupboard and let the kids stir the cake batter by hand and recruit someone to chop the veggies instead of tossing them into a food processor. The experience might save some electricity and make everyone proud of contributing to the meal.

Keep these handy and helpful tips in mind as you prepare to entertain family and friends in your home this holiday season.

KIDS CORNER SAFETY POSTER

"Keep Indoors!"

Grace Austin, 7 years old

Grace is a member of West River Electric Association based in Rapid City. She encourages readers, "During a storm, all kids and pets should be inside. So, don't go outside. It's dangerous."

Kids, send your drawing with an electrical safety tip to your local electric cooperative (address found on Page 3). If your poster is published, you'll receive a prize. All entries must include your name, age, mailing address and the names of your parents. Colored drawings are encouraged.

Savory Slow-Cook Selections

Slow-Cooker Zucchini Soup

1 ½ lbs. sweet Italian sausage	2 tsp. salt
2 c. ½-inch celery pieces	1 tsp. white sugar
2 lbs. zucchini, cut into ½-inch slices	1 tsp. dried oregano
2 (28 oz.) cans diced tomatoes (or fresh)	1 tsp. Italian seasoning
2 green peppers, cut into ½-inch slices	1 tsp. dried basil
1 c. chopped onion	¼ tsp. garlic powder
	6 T. grated Parmesan cheese, or to taste

Heat a large skillet over medium-high heat. Cook and stir sausage in the hot skillet until browned and crumbly, 5-7 minutes; drain and discard grease. Mix celery into cooked sausage; cook and stir until celery is softened, about 10 minutes. Combine sausage mixture, zucchini, tomatoes, bell peppers, onion, salt, sugar, oregano, Italian seasoning, basil and garlic powder in a slow cooker. Cook on low for 4-6 hours. Garnish each serving with 1 T. Parmesan cheese. Note: Water is not needed in this recipe.

Shelly Goetz, Sioux Falls, SD

Crock Pot Corn

2 (16 oz.) bags frozen corn	6 T. sugar
8 oz. cream cheese (but in chunks)	6 T. water
	½ cup butter or margarine

Put in crockpot on high for two hours or low for four. Stir every once in a while. Salt and pepper to taste.

Helen Gregory, Lemmon, SD

Spaghetti Corn

1 can cream style corn	1 onion, diced
1 can whole corn	1 cup shredded cheddar
2 cups spaghetti, broken	1 stick butter, melted

Break spaghetti into 2-inch pieces. Do not drain whole corn. Combine all ingredients. Pour into buttered casserole dish. Bake uncovered for 30 mins. at 350. Cover and put back in oven for 20 mins. OR place in crock pot for 2 hours. OR Cook on stove for 50 mins. on lowest heat, removing for 10 minute intervals.

Jane Ham, Rapid City, SD

BBQ Steakhouse Chili

2 T. oil	beans, rinsed
1 lb. beef top round steak, cut into 1/2-inch pieces	2-1/2 cups undrained canned no-salt-added diced tomatoes
1 lb. extra-lean ground beef	1 bottle (18 oz.) KRAFT Hickory Smoke Barbecue Sauce
1 onion, finely chopped	¾ cup KRAFT Shredded Cheddar Cheese
¼ cup A1 Dry Rub Bold Original	
3 cloves garlic, minced	
2 cans (16 oz. each) kidney	

Heat oil in large skillet on medium. Add next five ingredients; stir. Cook 10 min. or until meat is evenly browned, stirring frequently. Spoon into slow cooker sprayed with cooking spray. Add all remaining ingredients except cheese; stir. Cover with lid. Cook on low 7 to 8 hours (or on high 4 to 5 hours). Serve topped with cheese.

Provided by Kraft Heinz

Chicken Cacciatore

1/2 cup KRAFT Zesty Italian	1 green pepper, cut in strips
1 tsp. dried oregano leaves	1/2 lb. sliced mushrooms
2 lbs. mixed boneless skinless chicken breasts and thighs	1-1/2 c. CLASSICO Tomato and Basil Pasta Sauce
	3 c. rotini pasta, uncooked

Mix dressing/oregano in pot sprayed with cooking spray. Add chicken; coat both sides of each piece with dressing mixture. Top with vegetables and pasta sauce; cover with lid. Cook on low 6-8 hours (or high 4-6 hours). About 15 min. before serving, cook pasta, no salt. Drain. Serve topped with chicken and vegetables.

Provided by Kraft Heinz

Please send your favorite holiday recipes to your local electric cooperative (address found on Page 3). Each recipe printed will be entered into a drawing for a prize in December 2020. All entries must include your name, mailing address, telephone number and cooperative name.

Breathe Easy about Your Air Quality

Pat Keegan

Collaborative Efficiency

Dear Pat and Brad: I read your column a few months ago on sealing air leaks, but I've heard a home that's sealed too tightly can lead to air quality issues. How can I be sure I have healthy air as I seal air leaks in my home? – Lee

Dear Lee: Sealing air leaks is one of the best ways to make your home more energy efficient, and there are steps you can take to ensure your home has an adequate amount of healthy, fresh air.

The average home loses about half its air volume every hour, so it can be sealed considerably (often at a low cost) and still have more than enough healthy air. Pollutants are the main cause of poor indoor air quality, and the most dangerous pollutant is carbon monoxide (CO). It can come from furnaces, water heaters or stoves that burn natural gas, propane or wood. The problem usually occurs in devices that are old, in need of repair or installed or operated in a manner that prevents clear, unobstructed supply and exhaust of combustion air.

Excessive moisture in the air can also be considered an indoor pollutant because mold and dust mites thrive when relative humidity is above 60 percent. One sign your home is sealed too tightly is window condensation, which can happen if moist air doesn't exit the home at an adequate rate. Pollutants can cause physical reactions such as coughing or sneezing, but carbon monoxide causes more severe reactions, such as headaches, dizziness, nausea, shortness of breath, confusion, blurred vision or loss of consciousness.

So, what can you do to ensure healthy air as you increase your home's energy efficiency? The first strategy, according to the Environmental Protection Agency (EPA), is to eliminate or reduce the source of pollution. The first pollutant to eliminate is carbon monoxide. If you have a combustion furnace, it should be inspected and serviced regularly. If you have any combustion appliances, it is critical that CO detectors are installed and replaced every five to seven years.

If you live in an area with radon, which you can determine by checking out the EPA's radon map, keep it out of your home because it is the second leading cause of lung cancer. Radon tests are not expensive, and your local health authorities can provide details. If radon levels are too high, you'll need to hire a professional to install a system that will divert radon gas out of your home.

Here are a few additional pollutant reduction measures to consider:

- Never smoke tobacco inside
- Run the exhaust fans in bathrooms and your kitchen after use
- Store toxic cleaning and painting products outside
- Never idle a vehicle, even for a minute, in an attached garage.

The second strategy is ventilation. Your home probably has more than enough natural ventilation from outside air leaking into the home. If you suspect this isn't adequate, the best way to know for sure is to hire an energy auditor to do a blower door test.

Many experts recommend sealing the home as tightly as possible and using mechanical ventilation to ensure a consistent and adequate supply of outside air. The most energy efficient ventilation system is a heat recovery ventilator (HRV), which pulls in fresh air from outside and captures the heat from indoor air before it is exhausted to the outside.

The final strategy is to clean the air. Change your furnace filter every three months and keep your furnace supply and return air registers free of obstructions. If any rooms do not have an air return, keep the doors open. There are several home air cleaning systems available. The EPA offers a handy online guide: www.epa.gov/indoor-air-quality-iaq/air-cleaners-and-air-filters-home.

If you live in an area with radon, keep it out of your home because it is the second leading cause of lung cancer.

This column was co-written by Pat Keegan and Brad Thiessen of Collaborative Efficiency. For more information on how to breathe easier in your home, please visit: www.collaborativeefficiency.com/energytips.

BRULÉ

Internationally renowned band brings color and spirit to seasonal performances

Billy Gibson

billy.gibson@sdrea.coop

What gets you in the spirit of the Christmas holiday season?

For a growing number of people, it's the annual high-energy holiday stage performance by Brulé, the world-renowned music and dance theater ensemble hailing from the Lower Brule Sioux Indian Reservation.

This year's dramatic "Silent Star Night, A Christmas Show" stage production is scheduled to take place at the Deadwood Mountain Grand on Saturday, Nov. 21 at 7 p.m. The show is designed to spread the message of hope, peace and a true and lasting reconciliation among the various cultures of the world.

Over the past 25 years, Brulé has taken its powerful award-winning performances across the world and treated audiences to its unique blend of Native American rhythms, sounds and inspired dance. It's a theatrical stage show reminiscent of other popular large-scale productions such as Riverdance, the Trans Siberian Orchestra and Celtic Thunder, but with a sharp focus on Native American history and culture.

The new age entertainment artists have sold more than one million CDs across the globe and have appeared on television programs such as Live with Regis and Kathie Lee and CNN Worldbeat.

The group has also racked up numerous music and entertainment industry awards as it continues touring with a schedule of more than 100 performances a year throughout the region.

The primary force that drives the band along its highly successful track is founder Paul LaRoche, an accomplished rock and jazz musician who has biological ties to the Lakota tribe, although he was adopted at birth and reared by a white middle-class family in Worthington, MN.

LaRoche would later reunite with his Lakota kin that includes two siblings and several aunts, uncles, nieces and nephews. He founded the band based on the concept of blending elements of modern rock with traditional Native American sounds.

It didn't take long for the group to gain popularity and a loyal following after winning a Nammy Award from the Native American Music Association as well as many other accolades.

Last year, Brulé celebrated its 25th year as a performance group

The critically acclaimed Native American band Brulé has entertained and inspired audiences around the world for more than 25 years.

by releasing its entire collection of 265 songs on a set of 20 CDs. The massive set spans two generations of Brulé history and features a wide-ranging assortment of original recordings of the group's most popular tracks. A digital collection that includes previously unreleased songs is also available (www.brulerecords.com).

All proceeds from the anthology go toward the group's non-profit foundation called "Following the 7th Direction," an initiative aimed at reconciling diverse cultures and preventing Native American teen suicide. Statistics show that Native American teens are among the most likely minor-age demographic to attempt suicide.

Operation Black Hills Cabin is a healing place for U.S. military veterans in Custer.

HEALING PLACES

Organizations cater to military veterans in need

Billy Gibson

billy.gibson@sdrea.coop

“After 21 years of learning to live with the scars, the limitations, the tremors and the nightmares...I can honestly say this experience has filled my heart with fresh hope.” - Veteran Jason Cooper

U.S. military veteran Jason Cooper needed some peace. He needed some quiet. He needed a reprieve from the rigors and stress of everyday life. So, Cooper gathered up his family and made the trip from his home in Kentucky to the Black Hills where he would find rest, relaxation and time for thoughtful contemplation.

Cooper and his crew spent a week-long vacation in a comfortable, cozy cabin in Custer as part of a project called Operation Black Hills Cabin (OBHC). Over the past 10 years, he and dozens of other wounded veterans have discovered a tranquil site to unwind and to enjoy the wide range of outdoor activities available in the area – all free of charge.

The program began as a service to provide veterans and their families with a free getaway and also as a means for organizers to express gratitude for the sacrifices made to protect freedom.

One of those founding organizers is Col. Marty Mahrt, a former Air Force pilot who joined the military in 1955 and flew 88 missions through two tours of duty in Vietnam. During his first tour, Mahrt was assigned to attack a munitions arsenal at Yen Bai Province. After releasing his ordnance and pulling away, Mahrt's F105 Thunderchief was hit in the right wing by enemy fire. The

Air Force veteran Col. Marty Mahrt is a founding board member of OBHC.

aircraft began a downward spiral, but Mahrt was able to eject and was soon rescued by a helicopter squadron and flown back to the U.S. for surgical treatment of a severe shoulder wound.

While Mahrt and his wife Colleen are usually on hand to greet the veteran visitors to OBHC, the guests rarely get to hear of Mahrt's combat experience. As he puts it, “They don't need to hear anything from me. They have their own problems. I just listen to them and let them know that we're here to help them.”

Mahrt said that he was eager to join Pat and Jeff Baird when they began gathering local support for OBHC back in 2011.

“Just knowing a lot of people who didn't make it back, and seeing the wounded warriors coming back from Iraq, that was something that motivated us to get involved. You see these families, the whole structure of the family changes when a soldier

The Ranch Ministries in Blunt gives veterans an opportunity to hunt in one of the country's most prized pheasant harvesting territories.

and breadwinner is wounded and the wife has to take over," he said.

Mahrt points out that while the project isn't necessarily about providing psychological therapy for the veterans, there are emotional connections made in the process. He said a significant part of the program is the local community's participation. Business leaders and individuals provide free services or deep discounts for meals, entertainment, local tourist attractions and outdoor activities. The veterans also receive a gift card loaded with "Custer Cash" to help offset travel costs.

The Trail of Healing at Operation Black Hills Cabin has a series of messages etched in stone.

"We meet the families and welcome them," Mahrt said. "Sometimes the emotions get the best of me when I present them with their Visa card and they start crying and give me a hug. Sometimes you get emotional."

OBHC Board Secretary Ione Fejfar said the support of the community and way the residents of Custer treat the veterans and their families is part of the strength of the program.

"The people of Custer are absolutely wonderful," she said. "They really roll out the red carpet for them and everywhere our veterans go, they are treated with respect and honor and friendship. Between the cabin and the town, this is a very healing place."

She said every veteran who visits the cabin is asked to compose a brief letter of gratitude to the community that's published in the local newspaper.

Oahe Electric Lends a Hand

The Ranch Ministries was founded by Marine veteran Ken Korkow on 540 acres in Blunt, roughly 20 miles east of Pierre. It's a faith-based retreat center he created to offer military veterans an open space to take part in team-building exercises, outdoor hunting and shooting sports, dirt track racing, firearms safety training, horseback riding and more.

According to Korkow, there's also a lot of bonding among brothers and spiritual growth that takes place along with all of the fun and games.

"We share the story of Christ, the one who heals and gives us purpose," said Korkow, who received citations for the Navy Cross and the Purple Heart.

Korkow explained the center is not only

open to veterans but to surrounding communities as well. Youth groups and adults have visited to participate in firearm safety and team-building exercises.

"A lot of people come here to get away from their everyday lives," he said. "We take care of the needs of our veterans, but we also depend on support and volunteers from the community for our success and we open our doors to those who want to come here and find fulfillment."

Liz and Ken Korkow provide a place where veterans can go to seek spiritual healing.

One of those supporting organizations is Oahe Electric, which has responded to requests to provide material and manpower to meet the ministry's needs.

According to Oahe Electric Member Services Manager Russ Hohn, "The Ranch has had a meaningful impact in our community and we've been able to give back through our Operation Round Up program, which is funded by our members. It's a prime example of our cooperative and our members demonstrating one of the seven cooperative principles: Concern for Community."

Happy Thanksgiving!

Traverse Electric's office will be closed on Thursday and Friday, Nov. 26-27, 2020, for the Thanksgiving holiday.

Happy Thanksgiving to you and your family!

THE RHEEM® MARATHON® BUILT TO LAST. WARRANTIED FOR LIFE.*

Built to Outlast Standard Electric Water Heaters

Available in 50, 85 and 100 gallons

Unmatched Durability—Non-metallic tank means no anode rod to replace and easy maintenance

High-Efficiency Design—Polyurethane foam insulation allows only 5° of heat loss in 24 hours

Easy Installation—Light-weight plastic tank is easier to maneuver for one-person installation

Visit Rheem.com for more information

*Limited tank warranty is extended for residential single family dwelling applications from ten (10) years to lifetime with product registration (limited parts warranty is extended for residential single family dwelling applications from one (1) year to six (6) years with registration). Warranty registration must be completed within 90 days of installation. Some states may not require warranty registration. Limited lifetime tank warranty applies to the original purchaser for as long as the purchaser owns the home. See warranty certificate for complete information. Warranty information can be located in the "Use and Care Instructions" found under the Specs/Docs tab of the product page on Rheem.com.

Members Thank Traverse Electric

We would like to say thanks to the guys who took down the dead tree that was over the lines in our yard!

Delbert & Lynn Fickes
Herman, MN

Thank you for the gifts and info at the drive-thru.

Gerald & Janice Faas
Beardsley, MN

Thank you for the open house gifts.

Laura Hagelin
Beardsley, MN

Thank you so much for the vouchers. I love the power surger-can charge my phone. Thanks.

Delores Thompson
Wheaton, MN

Thank you for the generous donation to our service.

Browns Valley Ambulance Crew
Browns Valley, MN

Thank you, thank you, thank you, for the years of wonderful service.

Deborah Jandt
Breckenridge, MN

Thank you for the door prize. We have used the power cooker several times already. It is easier than starting the grill for the 2 of us. Also a big thanks to the linemen who cut some branches down for us around our power lines. We love our Co-op!

Lyle and Clariece Brecht
Wheaton, MN

Thanks for the drink mixer I won at the annual meeting.

Bill Stallman
Beardsley, MN

Thank you for fixing the security light. It's nice to have it back on again. Thanks.

Margaret & Lori Stowe
New Effington, SD

Thank you for the vouchers and gift bag I received at your drive-thru meeting. The greatest thanks is for the iPad I won in the prize drawing. What a pleasant surprise.

Mary Needham
Graceville, MN

Thank you for the \$50.00 credit to our bill from the prizes for the annual meeting. Kudos to all of you for having a very organized "Drive

Up" annual meeting - things went so smooth!

Leon & Jill Anderson
Rosholt, SD

Thank you so much for the \$40.

Wallace Johnson
Wheaton, MN

Thank you for the prompt service on repairing my security yard light!

Renee Schwebach
Dumont, MN

Apprentice lineman Colden Helberg demonstrates pole top rescue.

Linemen Hone Their Skills

Recently our linemen participated in the annual bucket and pole top rescue training. This is an OSHA mandated safety training designed to evaluate each lineman on their ability to properly rescue an injured lineman. Each lineman must balance their skills with safety, climb a pole, and rescue a 185-pound training mannequin by securing the mannequin using ropes and pulleys and safely deliver it back to the ground. We hope that our linemen never have to use this skill, but if they do, the training is an opportunity to prepare if the need should ever arise. In addition to pole top rescue, linemen are also trained to rescue an injured lineman from the bucket.

Linemen learn how a bucket functions and how to conduct a bucket rescue.

The South Dakota National Guard has been responsive in helping co-ops restore power to their members after natural disasters.

S.D. NATIONAL GUARD

Co-ops, SDNG work together to meet challenges

Billy Gibson

billy.gibson@sdrea.coop

The South Dakota National Guard and the state's rural electric cooperatives share a synergistic relationship that goes back for decades. Both the Guard and the co-ops are highly skilled, highly motivated and highly prepared to respond in an emergency situation and to deliver help when and where it's needed.

For cooperatives, the response typically centers around restoring power after a natural disaster so that members can return their lives and their business operations back to normal as soon as possible. The state's 28 electric co-ops are part of a state, regional and national mutual assistance agreement that assures help will arrive when needed, and that, in turn, help will be dispatched upon request.

Cooperative operations personnel throughout the state work in conjunction with the South Dakota Rural Electric Association (SDREA) in Pierre to formulate and maintain an emergency work plan designed to help expedite the process of responding to a natural disaster.

According to SDREA Manager of Loss Control Services Mark Patterson, the more than 125,000 electric co-op consumers across South Dakota can rest assured their local power provider has the resources available to meet any and all challenges.

"We have a well-connected professional network of electric co-ops in South Dakota that's made up of exceptionally skilled linemen and supervisors who are absolutely the best in the business," Patterson said. "They have the experience they need to do the job as quickly and safely as possible, and they also have the resources at their disposal to rebuild the system and get the

power back on for our members who desperately need it."

Similarly, emergency preparedness is the South Dakota National Guard's stock in trade; although the Guard's scope of emergency response is quite broader. Not only do soldiers stand ready to be deployed to just about anywhere across the globe at a moment's notice, they also are trained to assist in a variety of stateside tasks.

The Guard's heroic work after the Rapid City Flood, The Spencer Tornado, the 1997 blizzards and the 2011 mass flooding are just a few active duty missions where the Guard came to the rescue to help save and protect life and property.

Most recently and most prominently, the Guard has been summoned to help contain and control politically-motivated

Co-op crews have relied on the National Guard to assist in power restoration efforts.

The National Guard and electric cooperatives share a commitment to serve the citizens of South Dakota, especially in stressful times.

violence and also deal with problems brought on by the COVID-19 pandemic.

After a coronavirus outbreak at Smithfield Farms in Sioux Falls made national headlines, the Guard deployed 25 ambulance teams - including four air support teams - and was recruited to conduct contact tracing in both Sioux Falls and Rapid City. Roughly 2,600 Smithfield Farms employees and their family members were tested for the virus with the assistance of National Guard personnel.

Gov. Kristi Noem expressed her appreciation for the work of the National Guard soldiers. “We knew they would be ready, they always are, but I don’t want anyone to take for granted how blessed we are to have men and women in our South Dakota National Guard that continue to step up.”

Lt. Col. Anthony Deiss, Director of Public Affairs for the South Dakota National Guard, recalls being personally involved in previous missions to help electric cooperative crews transport poles and other equipment, control work zones along roadways and pull vehicles out of wet, muddy ditches.

He said the soldiers take a great deal of pride in their work and approach their respective missions with the same commitment to serve as cooperative line crews demonstrate on a daily basis.

“We’ve had a tremendous partnership with the electric cooperatives when working alongside them to help respond to winter storms over the years. Our co-ops are on the front lines when providing power restoration during and after natural disasters, and they serve a critically important role in public health and safety. Anytime the SDNG is called up by the state to assist our co-ops in their mission, we look forward to the opportunity to support them.”

“It’s important for different state agencies and organizations to coordinate and work together during emergencies. These

relationships are vital to our state and communities to help quickly mitigate, respond and recover from these disasters. We provide a variety of resources to assist civil authorities to ensure the safety and well-being of our citizens.”

Patterson of SDREA concluded: “I think this is one of the things that makes our state very unique, the sense that we all need to pull together, especially in a crisis. Neighbors helping neighbors...that’s what our National Guard and our co-ops are all about.”

The National Guard takes pride in helping electric co-ops reconstruct downed power lines and poles.

PHEASANT SEASON

GFP Commission reminds hunters of new rules for 2020

Billy Gibson

billy.gibson@sdrea.coop

Pheasant hunters, field guides and other service providers received some welcomed news from the South Dakota Game, Fish and Parks Commission in September. The Commission approved new rules that are sure to make hunters happy, even as reports indicate that resident combination licenses are up 25 percent year-to-date compared to September of 2019.

The Commission approved the following rule changes:

- Extending the state's pheasant hunting season through Jan. 31
- Modifying shooting hours for the first week of the season from noon to 10 a.m. CT beginning Oct. 17
- Increasing the daily bag limit from three to four roosters beginning Dec. 1, 2021.

Commissioners noted that while the new rules may please hunters, increasing the bag limit will not have a negative effect on the overall pheasant population as field research indicates a rooster can breed with up to 10 hens during the annual breeding cycle.

According to Heather Villa, wildlife administration chief, pheasant hunting enthusiasts and others involved in the industry can expect a robust season this year.

“Our information shows that license holders are purchasing their licenses earlier in the year. This is to be expected with having better weather compared to last year's extended winter,” Villa said. “We are showing the highest resident annual fishing and resident combination license sales in five years. Nonresident annual fishing licenses are up 32 percent and are trending similarly to

Due to sound conservation and habitat management practices, South Dakota remains a prime destination for pheasant hunters across the nation.

2018, but are still lower than 2016 and 2017.”

Villa added that hunters can expect even more abundant opportunities to pursue their passion for the sport in the future thanks to the Habitat Stamp initiative, which was signed into law this summer and is part of Gov. Kristi Noem's Second Century Initiative designed to improve the habitat and ensure future generations are able to enjoy the thrills and excitement of pheasant hunting. Just weeks after the law took effect on July 1, more than \$600,000 in revenue was produced from the sale of over 8,000 resident licenses and 15,000 non-resident licenses.

Revenue from the Habitat Stamp program can only be used to

develop habitat on public land and waters or to provide public access to private land. The stamp is required for anyone 18 or older when purchasing or applying for a hunting, fishing or furbearer license. The annual fee is \$10 for residents and \$25 for non-residents. The fee is not required for a one-day hunting or fishing license, youth hunting license, private shooting preserve license and other exempted categories.

The program was instituted as a means of not only preserving and expanding prime pheasant habitat but also as a way to make sure South Dakota maintains top billing as a pheasant hunting destination – and the economic activity and development that comes along with it. State officials describe it as a “win-win” for not only hunters but photographers, birders, kayakers, anglers and anyone who loves the outdoors.

Supporters of the new legislation say it's the state's sound habitat conservation and management practices that make South Dakota a prime destination for hunters throughout the country.

Supporters of the new legislation say it's the state's sound habitat conservation and management practices, in conjunction with the willingness of the outdoors community to see the big picture, that make South Dakota a prime destination for hunters

throughout the country. With a pheasant population that exceeds 7 million, the state is consistently best in the country for bird counts and harvests. Last year, hunters bagged nearly 900,000 birds during pheasant season.

Here are some helpful tips for a successful hunt:

- Don't under-gun. Use a 1-1/4 ounce load of #4 lead shot or 1-1/8 ounce of #2 steel shot.
- Use a dog. Crippled birds can be hard to find without a dog. Concentrate on cover that complements the hunting style of your dog.
- Hunt remote pockets. Search for secluded pockets that may have escaped the hunting pressure of large groups. Small sloughs, plum thickets and fence vegetation hold pheasants.
- Aim for the front half. Pheasants are not particularly fast,

Bacon Stuffed Pheasant

- | | |
|---------------------------------------|---|
| 2 pheasant breasts, boned and pounded | 2 tablespoon sour cream |
| 1/2 cup dry bread crumbs | 1/3 cup smoked almond, chopped |
| 1/2 teaspoon seasoning salt | 1/4 cup Brooster's Original Pheasant Nuggets finely chopped |
| 1/2 teaspoon pepper | 4 strips double smoked bacon |
| 2 teaspoons butter | 1/2 cup chicken broth or water |
| 1/2 cup onion, finely chopped | |
| 4 oz. pepper jack cheese | |

Preheat oven to 350-375 degrees. Gently pound raw pheasant breasts on both sides. Heat oil in pan, brown onions on medium. Stir in pheasant nuggets and smoked almonds, heat for one minute to combine flavors. In a mixing bowl, combine sour cream, seasonings, bread-crumbs, browned onions and pheasant nuggets. Melt butter and stir into stuffing mixture. Spoon the stuffing mixture equally in the center of each breast and place pepper jack cheese on stuffing and roll it up. Wrap a slice of bacon around each rolled up stuffed breast. The back will hold it together. Place in baking pan and bake for 50 minutes, or until the meat is tender.

South Dakota Tourism/Broosters

but many hunters shoot behind them. Lead the head, not the body, for a clean kill.

- Prepare for the weather. Fall can be a time of wide-ranging conditions. Plan to hunt in weather from sunny and 70 degrees to snow and below-zero wind chills.
